Course Outline

Each student will create their own Study Plan (explained below) and progress through the course at a pace that is appropriate for them. This highly individualized structure allows students to get the most from their work, given their interests, previous experiences, previous studies, anticipated practice setting and desired career roles.

Book Selection

Selecting your books should be done with care. The books you select will greatly influence your learning. You should select books that you believe will be directly applicable to your current work in school, internships, student organizations, experiential rotations, volunteer work, professional involvement, etc. You have many opportunities to exercise leadership right now, as a student. Selecting books that are immediately applicable is helpful.

Study Plan

Each student will work with one of the course directors to select three books. This is a self-directed course. However, based on previous experience and advice from students, we have found that it is helpful to have some deadlines to facilitate pacing through the course. To that end, each student will develop an individualized study plan that will be approved by the course directors. This study plan will include which books to complete in which order and in what timeframe.

Book Completion

There will be both written and oral reflections requirement for each selected book. Reflections will provide students with the opportunity to digest and integrate the new material with real life experience. See Canvas for more specific written assignment directions. Oral reflection will take place during a 2 hour session with leadership faculty and other students who are participating in the course.

1/15/2021 4:42 PM

Course Completion

To complete the course, the student will complete assignments on 3 books, complete a final written reflection on applying their new knowledge in practice and participate in a debriefing session to share with peer students and faculty a summary of their learning.

Studying

Commit to giving full attention to the assigned readings. Think critically about the lessons outlined in these readings, seeking to connect these to your observations of pharmacy practice in today's health care system. Reflect on your role in applying these concepts immediately and over the course of your career. Ultimately, meeting the course goals will be based on the time and effort you commit to these activities. **You should plan to spend approximately 15 hours on each book. This will include reading and taking notes, as well as completing assignments to demonstrate your learning/application to pharmacy.**

Appendix B. Rubric for Reflections on Selected Books
